Feathered Friend Tracker - Administrator Guide

Data Backup & Management

Google Drive Integration:

- Backup all application data to Google Drive
- Restore data from previous backups
- Automatic backup scheduling
- Secure data storage and encryption

Discord Integration

Notifications & Alerts:

- Configure Discord webhook URLs
- Receive backup success/failure notifications
- System status updates
- Critical event notifications

Administrator Access

Permissions & Security:

- Access restricted to authorized administrators
- Email-based authentication required
- Secure admin group membership
- Activity logging and monitoring

Important Notes:

- Only authorized administrators can access these features
- Regular backups are recommended for data safety
- Keep Discord webhook URLs secure and private
- Monitor backup notifications for system health
